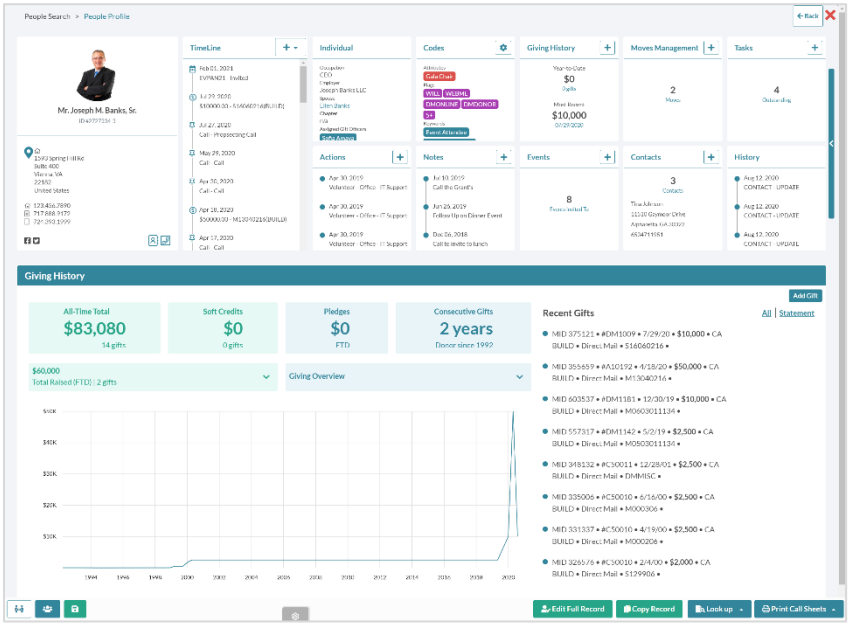
Reverse Address Look-up Tool

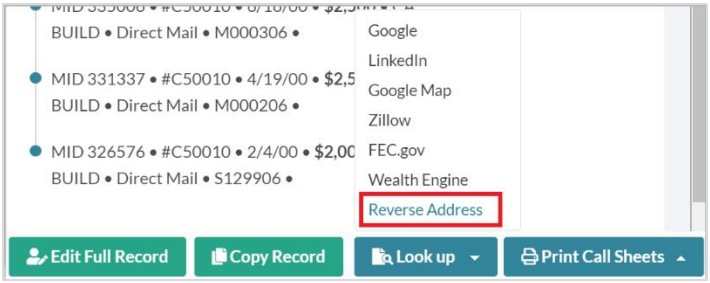
A new integration with the White Pages allows Crimson users to run a reverse look-up directly from People Profiles to verify contact information.

How to Use Reverse Look-up:

1. Open the People Profile of the individual you want to review.



2. On the bottom of the page, click on the  button.
3. Select “Reverse Address” from the options that appear.



4. A new window will open that takes you to the White Pages Reverse Address, which should list information for residents at that address.
